DETAILED ACTION

EXAMINER'S AMENDMENT

The following is an examiner's statement of reasons for allowance: the claim has clearly distinguished the present invention to the prior art reference. The prior art of reference has failed to disclose or suggest an anastomotic connector comprising a tubular portion, at least two opposed self-expanding radial petals adapted to compress into a low profile for insertion through a sheath and to self-expand to extend radially in a substantially circular profile upon advancing beyond the distal end of the sheath, wherein the distal ends of the radial petals substantially overlap when the petals are in a self-expanded condition.

Claim 9 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

The drawings filed on 11/21/2000 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
